PHYSIQUE AMERICA

Announces

2023 FIT MODEL CHAMPIONSHIPS

Physique America announces that the first Federation Fit Model Championships will be held at the **WEEKEND of CHAMPIONS Entertainment Festival**, August 4-6, 2023, in Las Vegas, Nevada.

The Fit Model division was created to cater to women who prefer a physique that is neither excessively muscular nor excessively lean. The overall appearance of a fit model competitor needs to be shapely, sexy, glamorous, proportional, and symmetrically balanced. Judges will be evaluating athletes in a one-piece suit and a gown or cocktail dress. This allows female competitors to display their physiques in the way they want it to be presented.

Physique America will also be adding Fit Model to all competitions in 2023. We look forward to having female athletes enjoy this category and please keep in mind, "Physique America is a safe place for women to compete."
